PLANNING COMMISSION AGENDA DOCUMENTATION

DATE: December 16, 2021

COVID-19 Protocol for 2022

ITEM NO: 6.2

An on-going conversation, this is an opportunity for the Commission to discuss how we might proceed in 2022 regarding COVID protocol. The Commission has a number of proposed code and map amendments that will require public participation in the coming year. Currently, we stream meetings on Facebook and provide a Zoom link for the public to attend and view our meetings. The Planning Commission may wish to discuss how we will engage with the public, whether that be in-person, or through additional virtual opportunities.
