| SUBJECT: RESOLUTION 23-01, Revising the In-Lieu Donation Amount for Tree Removal in the City Right-of-Way | ITEM NO: 5.3.1 |

BACKGROUND:

The Parks & Recreation Commission voted at their September meeting to recommend that the City Council increase the voluntary donation for a request to remove a tree in the City's right-of-way from \$50 to \$150. The City's tree ordinance, 1605, allows a property owner to request removal of a tree in the City's right-of-way and either replace the tree in another location nearby, or pay an in-lieu donation to have a tree planted elsewhere. The city is a participant in the Tree City USA program, which requires we maintain a certain number of trees per capita, so we often strive to replace every tree that is removed.

The Commission reviewed Resolution 14-01 that allows an individual to voluntarily donate funds for the replacement of trees and landscaping, in lieu of replanting, when deemed appropriate. That Resolution was signed in 2014 and the cost for tree replacement at the time was valued at \$50.

The cost of materials and planting has increased since 2014, so the Commission researched current tree prices and determined that trees that are 5-6 feet in height (likely what is needed to meet the code standard of 1" at 4' tall) cost around \$150. A draft resolution is attached for your review and approval.

FISCAL IMPACT:

Anticipating that we continue to receive around 15 requests for tree removal per year, we may see a modest budget for tree replanting depending on how many people choose to pay the in-lieu donation. Currently, tree planting events are primarily volunteer-driven and have used Public Works funds or donations.

RECOMMENDATION:

Make a motion to approve Resolution 23-01, increasing the in-lieu donation amount to \$150 per tree for voluntary removal in the City's right-of-way.
