- J. Provide the opportunity to recycle as part of an overall solid waste management system, taking advantage of coordinated area-wide service, promotion, marketing, and education.

8.04.020 Definitions.

For the purposes of this ordinance, the following mean:

"Franchisee" means Bandon Disposal & Recycling, Inc.

"Hazardous waste" means any substance defined as hazardous waste pursuant to state or federal law.

"Person" means any individual, partnership, association, corporation, trust, firm, estate, joint venture, or other legal entity or public agency.

"Resource recovery" means the process of obtaining useful materials or energy resources from solid waste, including reuse, recycling, and other recovery of materials or energy resources from solid waste.

"Solid waste disposal service" means the collection, transportation, and disposal of, or resource recovery from, solid waste.

"Solid waste" means all residential, commercial, industrial, governmental, or institutional wastes in a solid or semisolid state including, but not limited to, garbage, rubbish, refuse, trash, ashes or swill, newsprint or wastepaper, cardboard, grass clippings, compost, discarded home or industrial appliances, equipment or furniture, vehicle parts or tires, medical wastes, and vegetable or animal wastes.

"Solid waste management" means the control, reduction, and disposal of solid waste; and the management and provision of services, facilities and equipment necessary and convenient to such activities.

"Source-separated materials" means solid waste separated into separate materials by the source, generator, or producer in preparation for recycling or reuse.

"Waste" means material that is no longer directly usable by the source, generator, or producer of the material and which is to be disposed of or resource-recovered by another person. The fact that all or any part of such material may have value or that the source, generator, or producer of materials has separated or segregated such material from other waste does not remove the material from this definition.

8.04.030 Requirement of franchise.

No person shall provide solid waste disposal service or advertise or offer to provide such service within the corporate limits of the city of Bandon unless granted a franchise.

8.04.040 Grant of exclusive franchise.

8.04.050 Exemptions.

The following persons and activities are exempt from the requirement of a franchise:

- A. Collection, transportation, reuse, re-cycling of or operation of a collection center for totally source-separated materials or repairable or cleanable discards by a religious, charitable, benevolent or fraternal organization which was not organized and is not operated for any solid waste management purpose and which is using the activity for fund-raising. 8.08.150 Prohibited Vegetation.

- A. The State of Oregon has declared (through ORS 569.350) noxious weeds to be a menace to public welfare. The State has determined that steps are necessary which lead to intensive control of noxious weeds. It is recognized that the responsibility for eradication and intensive control rests not only with the private landowner and operator, but also on the local, state, and federal governments. The city expects voluntary compliance by landowners in taking actions to comply with this code and state law. In support of compliance, the city will provide information to increase public awareness of the problem, both citywide and property specific, and will provide guidance to available technical assistance. "Prohibited Vegetation" shall mean any plant classified as a noxious weed pursuant to ORS 569.350.
- B. The Coos County Board of Commissioners, Order 08-05-048L formed, a Noxious Weed Control District to ORS 569.360 and the intent of this ordinance is to work in cooperation with the Noxious Weed Control District and other weed eradication programs to ensure the needs of the community are met. Coos County has titled the priority noxious weeds as Targeted ("T")

designated weed) which provides a focus for prevention and control against such weeds. Specifically, "prohibited vegetation" shall include those plants identified as "T" designated weeds.

- C. It is the goal of the City of Bandon to intensely control noxious weeds within the city limits and other areas under city jurisdiction. The focus of this effort will be on weeds identified on the Coos County Noxious Weed "T" List. This list names several invasive species targeted for prevention and control within Coos County including Gorse, Knotweed, English Ivy and others. Of this "T" List, the highest priority for compliance & enforcement will be given to Gorse (*Ulex europaeus*), which poses the greatest threat to human health & safety, is a growing negative impact to the area economy and has been a significant fuel source in historic catastrophic fires.
- D. Gorse occupies large portions of the city and surrounding area and contains highly volatile oils which make it an extreme fire danger. It is a highly invasive plant with a prolific seed bank that remains viable in the soil for decades. Management and control of Gorse requires intensive and on-going measures to:
 - 1. Remove existing plants / colonies,
 - 2. Prevent the emergence of re-growth and new seedlings from flowering, and
 - 3. Prevent further seed spread.
- E. Prohibited vegetation must be removed in all areas.
- F. Compliance with this code on prohibited vegetation is expected to occur primarily through voluntary compliance. The City will utilize the enforcement power granted in the Bandon Municipal Code in Chapter 8.12 to obtain compliance when the prohibited vegetation presents a high risk of fire or of spreading to adjacent public or private properties. Such enforcement action will include citation to Municipal Court seeking the imposition of fines.

2. No construction work shall be performed on Saturday before nine a.m. or after seven p.m.
3. No construction work shall be performed before seven a.m. or after seven p.m. on weekdays (exclusive of holidays).
4. Provided, however, that in case of urgent necessity in the interest of the public welfare and safety, permission may be granted by the city manager for construction activities to occur on Sundays or city holidays or during otherwise proscribed hours for the duration of an emergency, or if the city manager determines that the public health, safety and welfare will not be impaired by construction activities but loss or severe inconvenience would result to any person unless such work were permitted within those hours.

D. Sound Broadcasting and Amplifying Devices. The use or operation of any sound production or reproduction device, radio receiving set, musical instrument, phonograph, television set, loud speaker, sound amplifier or other machine or device for producing or reproducing sound in such a manner as to disturb the peace, quiet and comfort in any residential or public area is prohibited. The city manager may grant a permit for the broadcast or amplification of programs of music, news, speeches, or general entertainment as part of a national, state or city event, public festivals or events of a noncommercial nature.

2. Unnecessary use or operation of horns, signaling devices, etc., on a motor vehicle;

F. Prima Facie Violations. The operation of any machine or any device designed for sound production, amplification or reproduction between the hours of ten p.m. and eight a.m. in such a manner as to be plainly audible on an adjacent property shall be prima facie evidence of a violation of this section.

- G. Criteria. The characteristics and conditions which should be considered in determining whether a violation of the provisions of this section exists should include, but not be limited to the following:
1. The level of the noise;
 2. Whether the nature of the noise is usual or unusual;
 3. Whether the origin of the noise is natural or unnatural;
 4. The time of day or night the noise occurs;
 5. The duration of the noise;

 8. The nature and zoning of the area from which the noise emanates and the area where it is received. (Ord. 1428 (part), 1999; Ord. 1388 § 30, 1997)
- H. Use of Unmuffled Brakes. No person shall use any un-muffled engine brake, commonly known as Jake or Jacob brake, on any motor vehicle, except to avoid imminent danger to persons or property.

The certificate of sale shall contain the name and address of the purchaser, the date of sale, the price paid, a description of the vehicle and a stipulation that the sale is without any warranty as to the condition or title of the vehicle. The purchaser shall be entitled to be issued a title and registration card for the vehicle, or to be issued a salvage title to the vehicle.
