November 6, 2014

#### **INDEPENDENT AUDITORS' REPORT**

To the Honorable Mayor and City Council City of Bandon Coos County, Oregon

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Bandon, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents. The financial statements as of June 30, 2013, were audited by other auditors whose report dated November 14, 2013, issued an unmodified opinion on those statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Bandon, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Supplementary Information

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

The listing of council members containing their term expiration dates, located before the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Reports on Other Legal and Regulatory Requirements

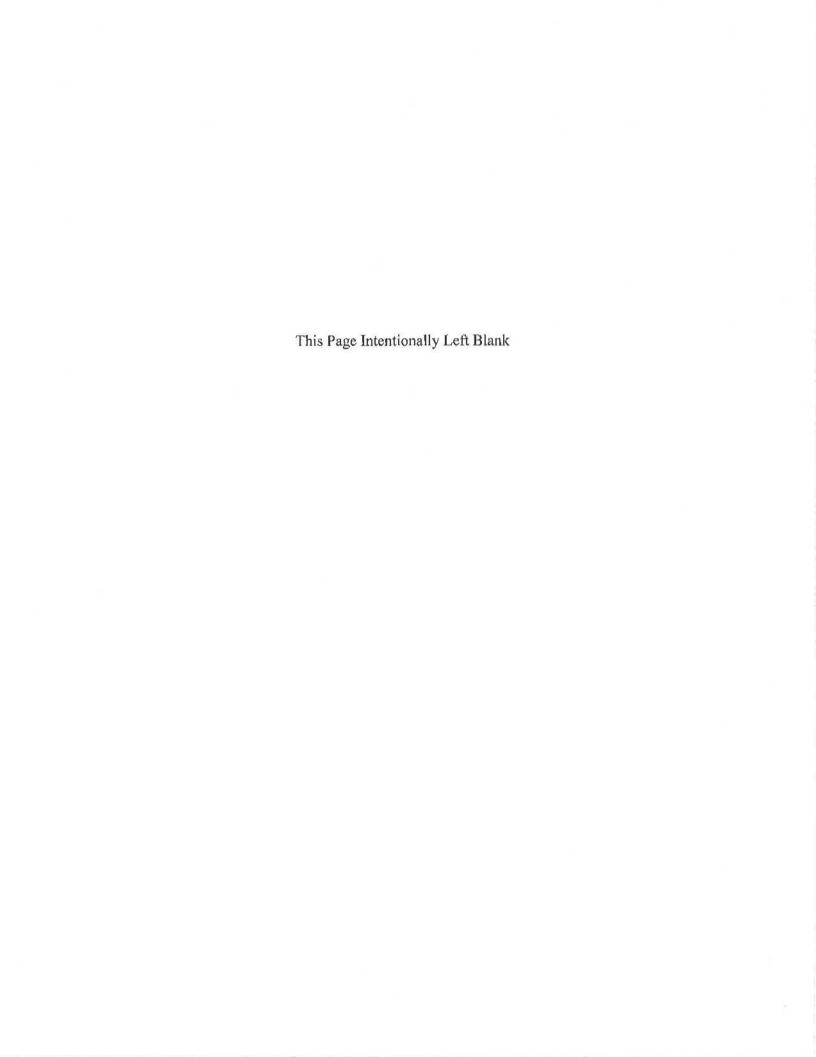

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2014 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 6, 2014, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

RÓY R. ROGERS, CPA

Roy R Rogers

PAULY, ROGERS AND CO., P.C.

#### Management's Discussion and Analysis

The management of the City of Bandon, Oregon (City) presents this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2014. This Management's Discussion and Analysis is intended to be an easily readable analysis of the City's financial activities based on currently known facts, decisions, and conditions. It focuses on current year activities and should be read in conjunction with the financial statements that follow. The report consists of government-wide statements, fund financial statements, notes to the basic financial statements, and supplementary information.

#### Financial Highlights

Total assets of the City of Bandon exceeded its liabilities by \$42.1 million (reported as *net position*). Of this amount, \$5.5 million was reported as "unrestricted net position." Unrestricted net position represents the amount available to be used to meet the City's ongoing obligations to citizens and creditors. The City's governmental funds reported combined ending fund balances of \$5.7 million. The balance was comprised of a restricted balance of \$3.0 million, \$2.2 million committed, and the remaining balance of \$421 thousand was unassigned. During the current fiscal year, the City's Net Position decreased by \$275 thousand and total debt decreased by \$353 thousand.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The focus is on both the City as a whole (government-wide) and the major individual funds. The dual perspectives allow the reader to address relevant questions, broaden a basis for comparison (year-to-year or government-to-government) and enhance the City's accountability.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets and liabilities with the difference between the two reported as net position (or deficit net position if liabilities exceed assets). Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in a future fiscal period (e.g., uncollected property taxes and earned but unused vacation time). The Statement of Activities is focused on both the gross and net cost of various activities (including governmental and business-type activities). This statement is intended to summarize and simplify the reader's analysis of the revenues and costs of various City activities and the degree to which activities are subsidized by general revenues.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include administrative and financial accounting services, library, recreation and cultural services, planning and development, police, and public works (streets and storm drain projects). The business-type activities of the City include water, electric and wastewater utilities.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate Urban Renewal Agency (URA) for which the City is financially accountable. Although legally separate, the URA's governing body is identical to the City's, and because the services of the URA are exclusively for the benefit of the City, it is included as an integral part of the primary government. Complete financial statements for the URA may be obtained from the City of Bandon, Finance Department, PO Box 67, Bandon, OR 97411. The government-wide financial statements can be found in the basic financial statements.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. These reconciliations can be found in the basic financial statements.

The City maintains twenty-three individual governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances for the major funds and an aggregate total for all other non-major governmental funds. The City's major governmental funds are the General Fund, the Urban Renewal District No. 1 and 2 Funds, the LID Debt Service Fund, and Block Grant Fund. Summary fund data by fund-type for the non-major governmental funds is provided in the form of combining statements. Individual fund data for each of these non-major governmental funds is provided as other supplementary information.

The City adopts an annual appropriated budget for all governmental funds. To demonstrate compliance with the budget, budgetary comparison statements have been provided for General Fund as required supplementary information. Budgetary comparisons for all other governmental funds have been provided as other supplementary information. The governmental fund financial statements can be found in the basic financial statements.

**Proprietary funds.** The City maintains one type of proprietary fund, *enterprise funds*. Enterprise funds are used to report the same functions that are presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sewer, water and electric utility operations. The enterprise funds are reported separately as proprietary fund financial statements in the basic financial statements.

The City adopts an annual appropriated budget for all proprietary funds. To demonstrate compliance with the budget, budgetary comparison statements have been provided for the enterprise funds as other supplementary information. The proprietary fund financial statements can be found in the basic financial statements.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financials statements can be found following the basic financial statements.

**Required supplementary information.** In addition to this discussion and analysis, this report also presents required supplementary information of budgetary comparison for the General Fund.

**Other supplementary information.** The combining statements and schedules for the Non-major Funds, Debt Service Funds, Capital Projects Funds, and the Enterprise funds follow the required supplementary information in this report.

#### Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the City of Bandon, total net position (total assets less total liabilities) were \$42.1 million as of June 30, 2014. A portion of the City's net position (\$32.1 million or 76%) reflects its investment in capital assets (e.g., land and right-of-ways, buildings, improvements, equipment and infrastructure, net of accumulated depreciation less any related debt used to acquire those assets that are still outstanding). The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. Of the remaining net position, 1% is restricted for debt service, 8% is restricted for capital projects, less than 1% is restricted for street and library projects, and the rest (13%) is unrestricted.

The Statement of Net Position provides a focus on the assets and liabilities related to the City's governmental activities.

As previously mentioned, the City's activities are divided between governmental and business-type activities. The majority of support for governmental activities comes from taxes, while the business-type activities are supported primarily through user charges.

**Governmental activities.** Governmental activities resulted in a net reduction in the City's net position of \$1.1 million. The main reason for this decrease is due to expenses exceeding revenues during the year. The basic financial statements include a reconciliation of the governmental funds balance sheet to the Statement of Net Position.

**Business-type activities.** Business-type activities increased the City's net position by \$813 thousand due to higher sales and a capital grant in 2014.

#### Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable resources*. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the City. At June 30, 2014, total fund balance for the General Fund equaled \$421 thousand, which was all unassigned. Unassigned fund balance is the amount considered available to spend. At June 30, 2013, the fund balance of the City's General Fund was \$392 thousand. The reason for the increase is due primarily to higher tax receipts.

The Urban Renewal District No. 1 & 2 Funds, Block Grant Fund, and Local Improvement Districts Debt Service Fund are the other major governmental funds. During the fiscal year 2014, the Urban Renewal District No. 1 Fund had a decrease in its fund balance of \$543 thousand. The fund balance of the Urban Renewal District No. 2 Fund was increased by \$90 thousand resulting in a positive ending fund balance of \$111 thousand. The Block Grant Fund increased by \$29 thousand. The Local Improvement Districts Debt Service Fund balance increased by \$246 thousand during the year due to closing out two of the LID funds into this fund.

**Proprietary funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail. The Sewer Fund, Water Fund, and Electric Fund are the major proprietary funds. For fiscal year end 2014, the Sewer Fund reported \$573 thousand change in net position, and the Electric Fund reported \$471 thousand increase in net position. The Water Fund reported a decrease in net position of \$231 thousand, reflecting the fact that revenues were not sufficient to cover expenses in this fund for fiscal year ended June 30, 2014.

General Fund Budget. No changes were made to the General Fund budget during the year. Actual revenues and expenditures for the year were less than budgeted. Actual Revenues were \$1.8 million compared to the budgeted amount of \$1.9 million. The General Fund expenditures were budgeted at \$2.3 million and actual expenditures were only \$1.7 million, primarily because departments reduced expenditures so as not to exceed the General Fund revenues. Transfers in of \$25 thousand and transfers out of \$50 thousand were made as budgeted for the year.

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2014 amounts to \$39.6 million (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, equipment, and infrastructure (streets, water, wastewater, storm drainage, and electric system). Additional information on the City's capital assets can be found in the Notes to the Basic Financial Statements.

**Long-term Debt.** As of June 30, 2014, the City had total long-term debt of \$7.5 million. Outstanding debt includes \$3.6 million in general obligation bonds to be serviced by general property taxes and \$2.1 million Urban Renewal general obligation bonds that are serviced by tax increment financing. The City would be liable for this Urban Renewal debt in the event of default by the Urban Renewal Agency. In addition, there is \$569 thousand in local improvement district bonds (special assessment debt) for which the City is liable in the event of default by the property owners subject to the assessment and the Water Enterprise Fund loan for \$385 thousand. Electric Revenue Bonds were paid off during the year.

The City's total debt decreased by \$353 thousand during the current fiscal year due to paying scheduled payments. The City of Bandon complies with Oregon Revised Statutes that limit general obligation bond debt to 3% of the real market value of all taxable property within the City's boundaries. Additional information on the City's bonded debt can be found in the Notes to the Basic Financial Statements.

#### Economic Factors and Next Year's Budgets and Rates

The total budget for fiscal year 2014-2015 is \$23,489,584, which represents an increase of \$122 thousand (0.5%) above the fiscal year 2013-2014 budget of \$23,367,377. The most significant differences include increases in the Local Option Street Tax and Capital Improvement Funds along with decreases in the General Fund and Electric Fund.

Unlike most other Cities whose budgets are based heavily on property taxes, Bandon's revenues are primarily generated by its electric, water, and sewer utilities. At only \$.46 per \$1,000 assessed valuation, the City of Bandon's permanent property tax rate is extremely low compared to other full-service cities in the County, whose rates range from \$6.10 to \$7.99. The most significant single long-term fiscal challenge facing the City

#### City of Bandon, Oregon

is to ensure the continued financial viability of the municipal water, sewer, and electric utility systems, and, thereby provide a financial basis for all other public services. These utilities contribute to the City's operation through sales taxes, in-lieu taxes, and direct payments. The total proposed General Fund (100) budget for last year was \$2,349,799 compared to this year's \$2,231,582, which is reduced by \$118 thousand.

The largest individual sources of General Fund revenues continue to be the transient occupancy tax, utility taxes, utility in-lieu taxes, and utility reimbursements. Other resources include property taxes, franchise fees, intergovernmental reimbursements such as liquor, cigarette, and miscellaneous permits and fees.

The main concern with the water, sewer, and electric utility systems revolves around the City Charter amendments which limit the ability of the City Council to increase utility rates. The problem is compounded in the near term by the overall downturn in the national economy, fuel price increases, the housing market slowdown, and decline in property values. In a local economy such as Bandon's, which is heavily dependent on utility revenue growth, tourism, and retirement in-migration, the revenue impacts can be significant for both local businesses and municipal government. In recent years, system development charges (SDC's), which depend on continued growth, have provided a significant portion of the City's capital improvement revenues for streets, drainage, and other City needs. The proposed fiscal year 2014-2015 budget projects modest increases in revenues for the electric, water, and sewer utilities as well as SDC revenues.

The City continues to receive Local Option Street Tax Funds for streets, drainage systems, and pedestrian facilities. This is a voter approved Local Option Tax in the amount of \$0.8455 per \$1,000 assessed valuation for 10 years. The Urban Renewal Special Levy will not be imposed while there is a Local Option Street Tax.

#### Requests for Information

This financial report is designed to provide a general overview of the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the following:

#### CITY OF BANDON

# Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities For the Fiscal Year Ended June 30, 2014

### Total net change in fund balances - governmental funds

177,399

(396, 593)

(1,116,692)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds defer inflows of resources that do not provide current financial resources. However, the Statement of Activities recognizes such revenues at their net realizable value when earned, regardless of when received.

| Property taxes                       | \$<br>(16,778) |
|--------------------------------------|----------------|
| Loans receivable                     | (25,416)       |
| Real property in lieu of assessments | (269,925)      |
| Special assessments                  | (84,474)       |

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which depreciation exceeds capital outlay in the period.

| Capital assets |     | 1,158,353   |
|----------------|-----|-------------|
| Depreciation   | 4:1 | (2,275,045) |

Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. These liabilities consist of:

| Change in interest payable              | 4,058    |
|---|----------|
| Changes in compensated absences payable | (13,861) |
| Principal payments on long-term debt    | 256,927_ |

Change in net position of governmental activities

\$ (1,088,762)

#### CITY OF BANDON

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2014

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

The City of Bandon (City), Coos County, Oregon, is a municipal corporation governed by an elected mayor and six-member council. The City provides public safety (police), highways and streets, sanitation, health and social services, culture and recreation, public improvements, planning and zoning, and general administrative services. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and all component units for which the City is considered to be financially accountable.

The basic financial statements include all financial activities, organizations and functions for which the City Council is responsible for financial accountability. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either a) the ability to impose its will on the component unit, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government. Therefore, although legally separate entities, blended component units are, in substance, part of the City's operations and data from these units are combined with data of the primary government.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. Based on the application of the criteria established by GASB, the Urban Renewal Agency of the City of Bandon is a component unit of the City.

Blended Component Unit. The Urban Renewal Agency of the City of Bandon, Oregon (Agency), was created by adoption of City Ordinance 1191 on August 5, 1986. The Agency is organized under general laws pertaining to urban renewal agencies in the State of Oregon. The City is not responsible for deficits nor entitled to surpluses of the Agency, the Agency Board designates management, budgeting authority lies solely with the Agency Board, the Agency is responsible for fiscal management and determination of revenue sources and the City is not legally or morally obligated for the Agency's debts. In this situation, the preceding factors are conclusive in contrast with the following factor which may indicate inclusion: The Agency Board is appointed by and made up of the same members as the Common Council of the City. However, legally the two Boards are distinct and conduct all business as such. Based on standards set forth in Governmental Auditing Standards Board (GASB) Statement 61 which the Agency early-implemented for the fiscal year ended June 30, 2012, the Agency is considered to be a "component unit" of the City because the City appoints the board members of the Agency. Accordingly, the financial statements of the Agency are included in the City's basic financial statements as capital project funds using the "blended" method of presentation.

A copy of the financial statement for the Urban Renewal Agency of the City of Bandon may be obtained by contacting City Hall.

#### B. Measurement Focus, Basis of Accounting and Basis of Presentation

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**Government-wide Financial Statements** The Statement of Net Position and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities. Interfund activity such as loans and transfers are eliminated to avoid "doubling up" revenues and expenses.

Governmental activities – The City's general government activities are reported in this category, including the General Fund, Special Revenue Funds, Capital Project Funds, and Debt Service Funds. Funding sources vary and include property, utility and franchise taxes, special assessments, permits and licensing, and charges for services.

Business-type activities – The City provides sewer, water and electrical service to its customers and this category reports the activities of the enterprise funds.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted Net Position are available.

**Fund Financial Statements** Fund financial statements report detailed information about the City. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The accounts of the City are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The various funds of the City are grouped into the categories governmental and proprietary.

All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for the governmental funds are a Balance Sheet, which generally includes only current assets and current liabilities, and a Statement of Revenues, Expenditures and Changes in Fund Balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenditures and Changes in Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The Statement of Cash Flows provides information about how the City's finances meets the cash flow needs of its proprietary activities.

**Governmental funds** are used to account for the City's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available").

"Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and claims of judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, utility taxes, franchise taxes, special assessments, licenses, fees and permits, interest and charges for services are susceptible to accrual if collected within 30 days of fiscal year end. Other receipts become measurable and available when cash is received by the City and are recognized as revenue at that time.

Intergovernmental revenues are recognized as revenues when all eligibility requirements are met. There are, however, essentially two types of intergovernmental revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, all eligibility requirements are determined to be met when the underlying expenditures are recorded. In the other, monies are virtually unrestricted as to the purpose of the expenditure and are usually revocable only for failure to comply with prescribed requirements; therefore, all eligibility requirements are determined to be met at the time of receipt or earlier if the susceptible to accrual criteria are met.

The City presents separate financial statements for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported in separate columns in the fund financial statements, with nonmajor funds being combined into a single column.

Major governmental funds include:

**General Fund** - This is the City's primary operating fund. This fund is used to account for all financial resources and transactions not required to be accounted for in other funds.

**Urban Renewal, District No. 1 Fund** and the **Urban Renewal, District No. 2 Fund** - These funds are used to account for construction, administration, and certain debt service payments within the urban renewal areas. These funds are financed by property taxes (tax increments) levied in various taxing districts.

**Block Grant Fund** - This fund is used to account for the collection of principal and interest from rehabilitation loans.

**Local Improvement Districts Debt Service Fund** - This fund is used to account for the receipt of special assessments. Expenditures are restricted to the repayment of the debt incurred.

Additionally, the City reports the following fund types:

The *special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes (not including expendable trusts or major capital projects).

The debt service funds account for the servicing of general long-term debt not being financed by proprietary funds.

The *capital projects funds* account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

**Proprietary funds** are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Proprietary funds include the following fund type:

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the Council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Major enterprise funds include:

Sewer Fund - This fund is used to account for the activities of the sewer disposal system.

Water Fund - This fund is used to account for the activities of the water system.

Electric Fund - This fund is used to account for the activities of the electric utility.

#### C. Assets, Liabilities and Equity

#### 1. Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and investments in the Oregon State Treasury Local Government Investment Pool (LGIP).

The City maintains merged bank accounts and investments for its funds in a central pool of cash and investments. The investment policy of the City is to invest in LGIP and interest bearing demand deposits with local banks and to transfer resources to the general checking account as the need arises. This policy is in accordance with ORS 294.035, which specifies the types of investments authorized for municipal corporations. The City allocates earnings on investments to each fund based on average monthly cash balances throughout the year. For purposes of the statement of cash flows, the City considers all highly liquid investments (including restricted assets) purchased with a maturity of three months or less to be cash equivalents.

Investments are stated at amortized cost, which equals market value.

#### 2. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables". All other outstanding balances between funds are reported as "due to/from other funds."

Other receivables including property taxes, accounts, entitlements, and shared revenues are reported in accordance with the policies enumerated in Paragraph B above. A small allowance for bad debts is carried in the enterprise funds. The City has strong enforcement procedures including shut off of services and uncollectible amounts are relatively small. An allowance for bad debt is not carried in the governmental funds because the City has determined that any uncollectible amount would be immaterial to the financial statements.

#### 3. Inventories

Physical inventories, with the exception of the proprietary funds, are taken for control purposes only. The cost value of such inventories has been recorded as expenditures when purchased. Accordingly, with the exception of the proprietary funds, a value is not included in the balance sheet.

Inventories in the proprietary funds are valued at cost using the first-in/first-out (FIFO) method. The costs of proprietary fund-type inventories are recorded as expenses when consumed rather than when purchased.

#### 4. Restricted Assets

Certain resources are set aside for repayment of debt and are classified as restricted assets on the

Statement of Net Position because their use is limited. Reserve accounts are used to report resources set aside for repairs and replacement to the water and sewer system and, when necessary, for the purpose of making principal and interest payments on the bonds and notes payable. Utility deposits of \$108,762 are also reported as restricted assets.

#### 5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported in the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The City maintains a capitalization threshold of \$5,000 and a useful life of over one year. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Furnishings and equipment | 5 - 7 years    |
|---------------------------|----------------|
| Infrastructure            | 10 - 60 years  |
| Land Improvements         | 5 - 100 years  |
| Buildings                 | 30 - 100 years |
| Other                     | 5 - 100 years  |

#### 6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has property taxes, assessments, and loans receivable that fit into this classification.

#### 7. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation leave can be accumulated up to 240 hours. No liability is reported for unpaid accumulated sick leave. In proprietary funds, vested vacation benefits are recognized as expenses when earned by the employee and unpaid benefits are liabilities of those funds. Governmental fund types recognize the expenditure when benefits are paid. Vacation pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. A liability for these amounts is reported in governmental funds only if they have matured, for example, as the result of employee resignations and retirements.

The funds typically used to liquidate the liability for compensated absences are any funds with payroll, which include: General Fund, Library, State Tax Street, Sewer, Water and Electrical funds. Employees have the option to accumulate overtime as compensatory pay, which accrues at overtime rates.

#### 8. Long-term Obligations

The City reports long-term debt on the Statement of Net Position. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

For governmental fund types, bond premiums and discounts are recognized during the current period. Bond proceeds are reported as an other financing source net of the applicable premium or discount. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

#### 9. Operating Revenues and Expenses, Non-operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for sales of water, sewer and electrical services. Operating expenses are necessary costs incurred to provide the goods or services that is the primary activity of the fund.

Non-operating revenues and expenses of the City are those revenues and expenses not directly related to the service provided by the fund. Non-operating revenues and expenses include interest, grants, and gain or loss on disposition of capital assets.

#### 10. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### 11. Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – non-spendable, restricted, committed, assigned and unassigned.

**Non-Spendable** – Includes amounts not immediately converted to cash, such as prepaid items and inventory.

**Restricted** – Includes amounts that are restricted by external creditors, grantors or contributors, or restricted by enabling legislation.

**Committed** – Includes amounts that have been committed by resolution by the City Council which is the City's "highest level of decision-making authority." Committed amounts may not be used for any other purpose unless the City Council removes the constraint by similar council action. Commitments of fund balance must be made prior to the end of the fiscal year.

**Assigned** – Includes amounts assigned for specific purposes by council action who authorizes, by resolution, the City Manager to assign fund balance. Assigned fund balance is also established by the Council through adoption or amendment of the budget as intended for specific purpose.

**Unassigned** – This is the residual classification used for those balances not assigned to another category. Only the General fund may have an unassigned balance.

#### 12. Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use it is the City's policy to use committed resources first, then assigned, and then unassigned as they are needed.

#### 13. Net Position

Net Position represents the difference between assets and liabilities. Net Position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net Position is reported as restricted when there is limitations imposed on its use through external restrictions imposed by creditors, grantors or law or regulations of other governments. For specific details see the statement of net position.

#### II. STEWARDSHIP. COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds with the exception of interfund loan payments. The annual budget for the proprietary funds is adopted on a basis not consistent with accounting principles generally accepted in the United States of America to comply with Oregon Local Budget Law. All annual appropriations lapse at fiscal year-end.

Oregon Local Budget Law establishes standard procedures relating to the preparation, adoption, and execution of the annual budget. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. The level of control for the General Fund, Water Fund, Sewer Fund and Electric Fund is by department. Total personal services, materials and services, capital outlay, debt service, contingency and transfers are the levels of control for the remaining funds.

Original appropriations may be increased through resolutions by transferring amounts between appropriations in the same fund or by transferring from an appropriation in the General Fund to an appropriation category in another fund. A supplemental budget is needed to increase appropriations when appropriations transfers are unauthorized. Budget amounts are as originally adopted, or as amended by the City Council.

Management may reassign resources within functions without seeking approval of the City Council.

#### B. Excess of Expenditures over Appropriations

Expenditures exceeded appropriations in the following amounts:

None

#### C. Deficit Fund Balance

None

#### III. DETAILED NOTE ON ALL FUNDS

#### A. Deposits and Investments

**Deposits.** The Governmental Accounting Standards Board has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the City at June 30, 2014. If bank deposits at year end are not entirely insured or collateralized with securities held by the City or by its agent in the City's name, the City must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits. Any deposits with financial institutions will be covered up to \$250,000 by Federal Depositary Insurance, and the remaining deposited at an approved depositary as prescribed by the Oregon State Treasurer.

The insurance and collateral requirements for deposits are established by banking regulations and Oregon law. Effective July 1, 2008, state statutes (ORS 295.002) allow public officials to deposit public funds in one or more depositories currently qualified pursuant to ORS 295.001 to 295.108. As long as the bank depository has entered into an agreement (ORS 295.008(2)(b)) and has deposited securities pursuant to state statutes (ORS 295.015(1)), there may now be on deposit at any one bank depository and its branches, a sum in excess of the amount insured by Federal Deposit Insurance Corporation. For the fiscal year ended June 30, 2014, the carrying amounts of the City's deposits in various financial institutions were \$176,050 and the bank balance was \$325,283. All deposits are held in the name of the City. Of the bank balance, the entire amount was covered by federal depository insurance or collateralized.

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. As of June 30, 2014, none of the City's bank balances were exposed to credit risk.

Investments. The City of Bandon has invested funds in the State Treasurer's Oregon Short-Term Fund Local Government Investment Pool during fiscal year 2014. The Oregon Short-Term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an unrated external investment pool managed by the State Treasurer's office, which allows governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB Statement No. 40.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the City's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the City's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at cost, which approximates fair value.

Credit Risk. State statutes authorize the City to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, certain commercial papers, and the State Treasurer's investment pool, among others. The City has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk. The City is required to provide information about the concentration of credit risk associated with its investments in one issuer that represent 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The City has no such investments.

Interest Rate Risk. The City has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

As of June 30, 2014, the City had the following investments:

| Investment Type   | Maturity             | Percentage<br>of Portfolio | Fair Va     | alue   |
|---|----------------------|----------------------------|-------------|--|
| Local Government Investment Pool  | 1 day                | 100%                       | \$ 8,222    | 2,546_   |

| Nonmajor funds        | 56,001            | 18,253     | 94,957             | <u> </u>       | 52,899                 | 222,110             |
|                       |                   |            |                    |                |                        |                     |
|                       | \$ 121,530        | \$ 104,197 | \$ 205,918         | \$ 146,246     | \$ 492,465             | \$ 1,070,356        |

#### Business-type receivables:

|                           |    | Sewer       | Water |                   | Electric |             | Total |                    |
|---------------------------|----|-------------|-------|-------------------|----------|-------------|-------|--------------------|
| Accounts                  | \$ | 507,429     | \$    | 41,490            | \$       | 306,867     | \$    | 855,786            |
| Special assessments Loans |    | 25,445<br>- |       | 87,262<br>406,362 |          | -<br>14,688 |       | 112,707<br>421,050 |
| Total receivables         | \$ | 532,874     | \$    | 535,114           |          | 321,555     |       | 1,389,543          |

Non-current property taxes and special assessments receivable are treated as deferred inflows of resources as unavailable revenue in the governmental funds. Accounts receivables are considered to be fully collectible. Accordingly, no provision for estimated uncollectibles has been established for those accounts.

**Property Taxes.** Property taxes are assessed and attach as an enforceable lien on property as of July 1. Taxes are levied on July 1 and are payable on November 15. They may be paid in installments due November 15, February 15, and May 15. Taxes are billed and collected by the County of Coos and remittance to the City is made at periodic intervals. For fiscal year 2013-14, the City imposed a property tax rate of \$.4580, bond levies of \$.3669, and local option tax levy of \$.8455 per \$1,000 of assessed value. The County determined the actual taxable assessed valuation within the City to be \$417,709,626. After subtracting the Urban Renewal Excess amount of \$43,741,034 and after adjustments, the net levy result is \$704,554.

Following is a summary of property tax transactions for the City for the fiscal year ended June 30, 2014:

| Coos County | <br>ceivable<br>/1/2013 | 2013-2014<br>Net Levy |         |               |    | 1 1.   | eceivable<br>30/2014 |

The City of Bandon's Urban Renewal Agency, a component unit, receives a tax increment under Section 1c, Article XI of the Oregon Constitution, and ORS Chapter 457. It states that the portion of the taxes representing the levy against the increase, if any, in true cash value of property located in the urban renewal area shall, after collection by the tax collector, be paid into a special fund of the Agency and shall be used to pay the principal and interest on indebtedness incurred by the Agency to finance or refinance the implementation of the urban renewal plan.

Following is a summary of property tax transactions for the Urban Renewal Agency for the fiscal year ended June 30, 2014:

| Coos County | eceivable<br>/1/2013 | <br>Collections<br>2013-2014 and<br>Net Levy Adjustments |    |         | eceivable<br>30/2014 |

All non-current property taxes receivable are treated as deferred inflows of resources as unavailable revenue. Other accounts and intergovernmental receivables are considered to be fully collectible. Accordingly, no provision for estimated uncollectibles has been established.

#### 12. Due to/from Other Funds

Interfund receivables and payables at June 30, 2014 consisted of loans to the Urban Renewal Agency funds. Amounts reported in the individual funds are as follows:

| Receivable Fund           | Payable Fund                      | <br>Amount    |
|---------------------------|-----------------------------------|---------------|
| Capital Improvements Fund | Urban Renewal District No. 2 Fund | \$<br>94,957  |
| Block Grant Fund          | Urban Renewal District No. 2 Fund | 110,961       |
|                           |                                   | \$<br>205,918 |

The payments on the Capital Improvement loans are due June 30th and the Block Grant Community Center loan is due July 1st of each year, if funds are available. As required by the Governmental Accounting Standards Board, these amounts are reported in the fund financial statements.

13. Capital Assets

Capital asset activity for the City for the fiscal year ended June 30, 2014 was as follows:

#### Governmental Capital Assets:

|   | ,  | Balance<br>6/30/2013  | Additions |  | Deletions |                    | <br>Balance<br>6/30/2014  |

#### F. Long-term Debt

General Obligation Bonds. The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary funds. In prior years, these bonds were reported in the proprietary funds if they were expected to be repaid from proprietary fund revenues; otherwise, they were reported in the Governmental Activities. All General obligation bonds have been reclassified into one General obligation fund that is reported in Governmental Activities. General obligation bonds are direct obligations and pledge the full faith and credit of the City.

**Revenue Bonds.** The City also issues bonds where the City pledges income derived from acquired or constructed assets to pay debt service.

#### **Business-Type Activities:**

**Loans.** The City obtained a loan from the State of Oregon State Revolving Fund for use in construction of its sewer treatment plant. The City has pledged the net operating revenues of the sewer fund to pay amounts due under this loan. State revolving fund loans currently outstanding are as follows:

**2006 OECDD Water Loan:** On November 30, 2006, the City entered into a loan agreement with the Oregon Economic & Community Development Department to borrow \$740,010 to finance the Airport Water and Sewer project. During 2006 and 2007 the City drew on the note and the note closed in October 2007. This debt is payable prior to maturity without penalty. Interest is to be computed annually on the outstanding balance at 4.73%. The grant portion of the loan was realized during the 2011-12 fiscal year resulting in a reduction in loan principal of \$204,518. Principal and interest payments are due in December of each year through 2028.

| Fiscal Year          |    | Principal |    | Interest |    | Total   |
|----------------------|----|-----------|----|----------|----|---------|
| 2015                 | \$ | 21,564    | \$ | 18,195   | \$ | 39,759  |
| 2016                 |    | 22,584    |    | 17,175   |    | 39,759  |
| 2017                 |    | 23,653    |    | 16,106   |    | 39,759  |
| 2018                 |    | 24,771    |    | 14,988   |    | 39,759  |
| 2019                 |    | 25,943    |    | 13,816   |    | 39,759  |
| 2020-2024            |    | 149,324   |    | 49,471   |    | 198,795 |

|                      |    | 384,664   | \$ | 141,829  | \$ | 526,493 |
| Less current portion |    | (21,564)  |    |          |    |         |
|                      | \$ | 363,100   |    |          |    |         |

#### **Governmental Activities:**

**2009 OECDD Water Clarifier Loan:** During 2007, the City entered into a loan agreement with the Oregon Economic & Community Development Department to borrow \$1,010,000 to finance the water clarifier

project. The City intends to repay the loan from the Water Fund. As of June 30, 2008, the City had drawn down \$1,008,823 of the loan. During 2009, the City made a payment in the amount of \$99,354, (\$16,107 for interest and \$83,247 for a principal pay down). On May 27, 2009, the note closed with a revised loan agreement to finance a \$925,576 loan instead of the original \$1,010,000 amount. Interest is to be computed annually on the outstanding balance at a rate of 3% - 4.75%. Principal and interest payments are due on December 1st each year through 2034. There are no reserve requirements. After January 1, 2019, this debt may be paid in full without penalty.

| Fiscal Year          |    | Principal | Interest      |              | Total     |

#### G. Restricted Net Position

The City's bond covenants require certain reservations of certain funds' Net Position for repayment of general obligations. Property taxes levied for payment of debt are restricted as to their use. In addition, revenues derived from certain sources are restricted for special projects. Net Position in these funds as of June 30, 2014 are classified as follows:

#### **Governmental Activities**

| Fund:  | De  | bt Service         | Special<br>Projects |      | Capital<br>Projects  |    | Customer<br>Deposits  | Total                                |

#### H. Interfund Transfers

| Fund                       | Tra | Transfer in |    |         |
|----------------------------|-----|-------------|----|---------|
| General Fund               | \$  | 25,000      | \$ | 50,000  |
| Electric Fund              |     |             |    | 25,000  |
| State Tax Street Fund      |     | 50,000      |    | -       |
| LID Debt Service Fund      |     | 29,430      |    | -       |
| 2001 Bandon LID Debt Svc   |     | -           |    | 5,890   |
| 2004 Hwy 101 Sewer LID D/S |     |             |    | 23,540  |
| Total                      | _\$ | 104,430     | \$ | 104,430 |

The above transfers in the amount of \$75,000 are routine in nature and occur annually to support a summer recreation program and State Tax Street Fund personnel costs. The other transfers in the amount of \$29,430 among the Local Improvements Funds are to close two LID Funds into the LID Debt Service Fund.

#### IV. OTHER INFORMATION

#### A. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

#### **B.** Construction in Progress

At June 30, 2014, the City is involved in the various phases of improvement projects. There were no significant contracts and remaining amounts at year end.

#### C. Defined Benefit Pension Plan

#### Public Employees Retirement System

Plan Description. The City contributes to the State of Oregon Public Employees Retirement System (PERS), a cost-sharing multiple-employer defined benefit pension plan administered by the Oregon Public Employees Retirement System. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Oregon Revised Statutes 238 assigns the authority to establish and amend benefit provisions to the PERS Board of Trustees and the State Legislature.

In the 2003 legislative session, the Oregon Legislative Assembly created a successor plan for PERS. The Oregon Public Service Retirement Plan ("OPSRP") is effective for all new employees hired on or after August 29, 2003, and applies to any inactive PERS members who return to employment following a six month or greater break in service. The new plan consists of a defined benefit program (the "Pension Program") and a defined contribution portion (the Individual Account Program or "IAP"). The Pension Program portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service and a factor that varies based on type of service (general versus police or fire).

Beginning January 1, 2004, all PERS member contributions go into the IAP portion of OPSRP. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP, not the member's PERS account. Those employees who had established a PERS membership prior to creation of OPSRP will be members of both the PERS and OPSRP system as long as they remain in covered employment.

Both PERS and OPSRP are administered by the Oregon Public Employees Retirement Board ("OPERB"). The comprehensive annual financial report of the funds administered by the OPERB may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, OR 97281-3700, by calling (503) 598-7377, or by accessing the PERS web site at www.oregon.gov/pers.

Funding Policy. Plan members are required to contribute 6% of their annual covered salary. The City "picks up" employee contributions at a rate of 6% as allowed under ORS 237.075. The City is required to contribute at an actuarially determined rate; the current rate of annual covered is 13.94%. Public employees hired after August 29, 2003, after a six month waiting period, become members of the Oregon Public Service Retirement Plan. The rate for OPSRP is set at 10.88% for general service and 13.61% for police payroll. The contribution requirements of plan members and the City are established and may be amended by the PERS Board of Trustees.

Annual Pension Cost. The City's annual pension cost for the years ending June 30, 2014, 2013, and 2012 were \$387,144, \$396,483, and \$393,278, respectively. The required contribution was determined as part of the December 31, 2012 actuarial valuation. The cost method was changed from Projected Unit Credit (PUC) Cost Method to the Entry Age Normal (EAN) Cost Method. In combination with the change in cost method, the Board chose to re-amortize the Tier1/Tier 2The Unfunded Actuarial Liability as of December 31, 2013 over a closed period of 20 years. Because all PERS employers are required by law to submit the contributions adopted by the PERS Retirement Board, and employer contributions are calculated in conformance with the Standards of GASB Statement No. 27, there is no Net Pension Benefit Obligation. The contributions actually made are equivalent to the Annual Pension Cost.

#### D. Other Postemployment Benefits

To accommodate for the GASB Statement No. 45 requirement that governmental employers account for and report the annual cost of OPEB, the City worked with City County Insurance Services, the City's insurance carrier, to have a valuation done. Milliman Consultants, an actuarial firm, performed the GASB 45 valuation for the City and concluded that the City has no OPEB liability under GASB 45. Their finding was based on the fact that all medical and dental coverages offered by the City to its employees and retirees are community rated. This means that the medical and dental coverage premiums paid the City and its employees and retirees are not determined with regard to claims experience or demographic characteristics of the City' covered population. The City does not pay for any portion of the premiums for its retirees' medical, dental, or life insurance coverage.

#### E. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. Workers' compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year, and the City has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years.

#### **MAJOR FUNDS**

**General Fund** – This fund is used to account for resources and activities directly associated with carrying out those operations related to the City's basic objectives. Included are all resources and activities, which are not required legally or by sound financial management to be accounted for in another fund. The primary sources of revenue are property taxes, franchise fees and intergovernmental revenue.

#### **Capital Project Funds**

**Urban Renewal District No. 1 Fund** - This fund is used to account for construction, administration, and certain debt service payments within the urban renewal areas. These funds are financed by property taxes (tax increments) levied in various taxing districts.

**Urban Renewal District No. 2 Fund** - This fund is used to account for construction, administration, and certain debt service payments within the urban renewal areas. These funds are financed by property taxes (tax increments) levied in various taxing districts

#### **Special Revenue Funds**

**Block Grant Fund** - This fund is used to account for the collection of principal and interest from rehabilitation loans.

#### **Debt Service Funds**

**Local Improvement Districts Debt Service Fund-** This fund is used to account for loans and repayments of assessments that are associated with Local Improvement Districts in the City of Bandon.

#### NONMAJOR GOVERNMENTAL FUNDS

#### Special Revenue Funds

Special revenue funds are used to account for resources and activities that are required legally or by sound financial management to be accounted for in separate funds.

**State Tax Street Fund** - This fund is used to account for the receipt of state gasoline taxes. Expenditures are legally restricted to the maintenance and improvements of streets, footpaths and bicycle trails.

Library Memorial Fund - This fund is used to account for private donations to the library.

**Library Fund** - This fund is used to account for the operations of the City's library. The primary source of revenue is taxes levied through the Coos County Library Services District.

**Community Beautification Fund** – This fund uses the receipts from the solid waste franchise fees for the purpose of community beautification projects.

**State Revenue Sharing Fund-** This fund is used to account for receipts from the State of Oregon through the revenue sharing program. Expenditures are legally restricted to certain areas.

#### **Debt Service Funds**

Debt service funds are used to account for the accumulation of resources and payment of general long-term debt principal, interest, and related costs.

**General Obligation Bonds Fund -** This fund is used to account for all general obligation bonds. These bonds were previously accounted for individually in funds 343, 344, 360, and 375.

**2000 Street and Sewer LID Fund** - This fund is used to account for a bank loan that was used for making street and sewer improvements along Edison Avenue, Newport Avenue and Seabird Drive.

**2001 Bandon LID Bond Fund-** This fund is used to account for a bank loan that was used for making street and drainage improvements along Bandon Avenue.

**Local Improvement District Fund** - This fund is used to account for the construction and assessment of water, sewer, and street improvements within organized special assessment districts of the City. This fund is comprised of a number of individual assessment districts.

**2004 Highway 101 Sewer LID Fund** - This fund is used to account for the receipt of special assessments. Expenditures are restricted to the repayment of the debt incurred.

#### Capital Projects Funds

Capital projects funds are used to account for the acquisition and/or construction of major capital facilities.

**Capital Improvement Fund** - This fund is used to account for capital expenditures including debt incurred for such expenditures which are financed by a portion of the local utility tax.

**Equipment Reserve Fund** - This fund is used to account for transfers from other funds to be used for major equipment replacement.

**Parks and Recreation Development Fund** - This fund is used to account for funds paid to the City by subdivisions in lieu of dedicating land for public park and recreation uses. The City is required to use said funds to aid in securing suitable areas for park and recreation purposes to serve the area containing the subdivision.

**Street SDC Reimbursement Fund** - This fund is used to account for the proceeds from system development charges which are legally restricted to expenditures for certain capital improvements.

**Street SDC Improvement Fund** - This fund is used to account for the proceeds from system development charges which are legally restricted to expenditures for certain capital improvements.

**Storm Drain SDC Reimbursement Fund** - This fund is used to account for the proceeds from system development charges which are legally restricted to expenditures for certain capital improvements.

**Storm Drain SDC Improvement Fund** - This fund is used to account for the proceeds from system development charges which are legally restricted to expenditures for certain capital improvements.

**Local Option Street Fund** – This fund is used to account for loan proceeds, interest, capital expenditures and interfund transfers necessary for the street paving project.

### **ENTERPRISE FUNDS**

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the City's council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City's council has decided that periodic determination of net income is appropriate for accountability purposes.

**Sewer Fund** - This fund and its related sub-funds are used to account for the activities of the sewer disposal system.

Sewer SDC Reimbursement Fund Sewer SDC Improvement Fund

Water Fund - This fund and its related sub-funds are used to account for the activities of the water system.

Water SDC Reimbursement Fund Water SDC Improvement Fund

Electric Fund - This fund is used to account for the activities of the electric utility.

November 6, 2014

Honorable Mayor and City Council City of Bandon Bandon, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Bandon as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated November 6, 2014.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

November 6, 2014

#### Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of the City of Bandon as of and for the year ended June 30, 2014, and have issued our report thereon dated November 6, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Highway revenues used for public highways, roads, and streets.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).

In connection with our testing nothing came to our attention that caused us to believe the City of Bandon was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal controls over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Council and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
