

# Beaches and Dunes Overlay (BDO) Zone - Johnson Creek Area

 Beaches and Dunes Overlay (BDO) Zone\*

 Tax lots

\*The Beaches and Dune Overlay (BDO) Zone boundary was developed utilizing preliminary ocean flood analysis maps developed by the Oregon Department of Geology and Mineral Industries (DOGAMI) in 2010 on behalf of FEMA for the purposes of identifying the 1% flood zone and the most landward extent of potential ocean flooding associated with the 1% storm. Although the ocean flood analysis maps were ultimately developed to define FEMA velocity zones for the City of Bandon, the Beaches and Dune Overlay zone is not a FEMA product nor is one implied. The purpose of the Beaches and Dune Overlay is to identify areas subject to ocean overtopping and wave undercutting that would be subject to Statewide Planning Goal 18 development restrictions. When the City adopts revised FEMA velocity zone maps the City will also review the BDO and make revisions if needed.
